Subject: rights agreement

Hi Mark

As discussed there is not enough time to get into a detailed discussion about the movie making about to take place except to have your friend sign a short note as attached re the rights to the product and you can witness it. As I understand it he is going to shoot some footage of Graeme Hall and nature subjects. Eventually he hopes to make one or more documentaries with that footage. As well he will shoot an interview of Mrs. Knox and some other subjects which will be discussed with Jane, John and Nathan at dinner on Monday at Seaview.

Please get this signed and get it back to me at your convenience and we can follow up with more when you return.

Regards, Bill

For valuable consideration including payment of all travel and accommodation expenses, I agree that all rights (including copyright and moral rights) in audio and video recordings taken during my trip to Barbados will belong to Nelson Barbados Investments Inc. (BNI).

I agree to deliver the storage media containing all audio and video recordings (the master copies) as BNI directs, immediately upon my return to Canada.

I am entitled to keep copies for use in documentaries, but otherwise they will not be used without written permission of BNI.

Signed on March , 2006

Mark please remember our theory is that the government reads everything that goes out of Barbados via email and also listens to phone conversations. Yes we are paranoid but these people are devious.

If necessary Marnie knows how to send me an encrypted message and I can relay it to Peter.

Regards, Bill

Peter:

I gather Stuart took care of the helicopter reservation.

I sent N to observe and provide some pointers as to what I would need for evidentiary and continuity purposes and also because I was told the cameraman does not do still shots. And I am always on the lookout for background pictures which can be sent to bloggers as matters develop.

Bill
